Tads freight wagons

Albert Modell is pleased to announce the start of production of the Tads (T80 to T83) covered hopper wagons with high-level bilateral controlled discharge, with a length of 14.86 m and a capacity of 45 m³.

The real wagons were built in 1973 and 1974 by ANF-Frangeco and ARBEL. Depending on the sub-series, these wagons were intended for the transport of sand, dried clays, fertilizers as well as powdered or granular materials.

This is a completely new model in H0 scale, never before produced by an industrial manufacturer. Its development is based on an in-depth study, covering all existing variants from eras IV, V and VI, in order to ensure a high level of historical and technical accuracy.

Nouveauté 2026

Wagons marchandises Tads

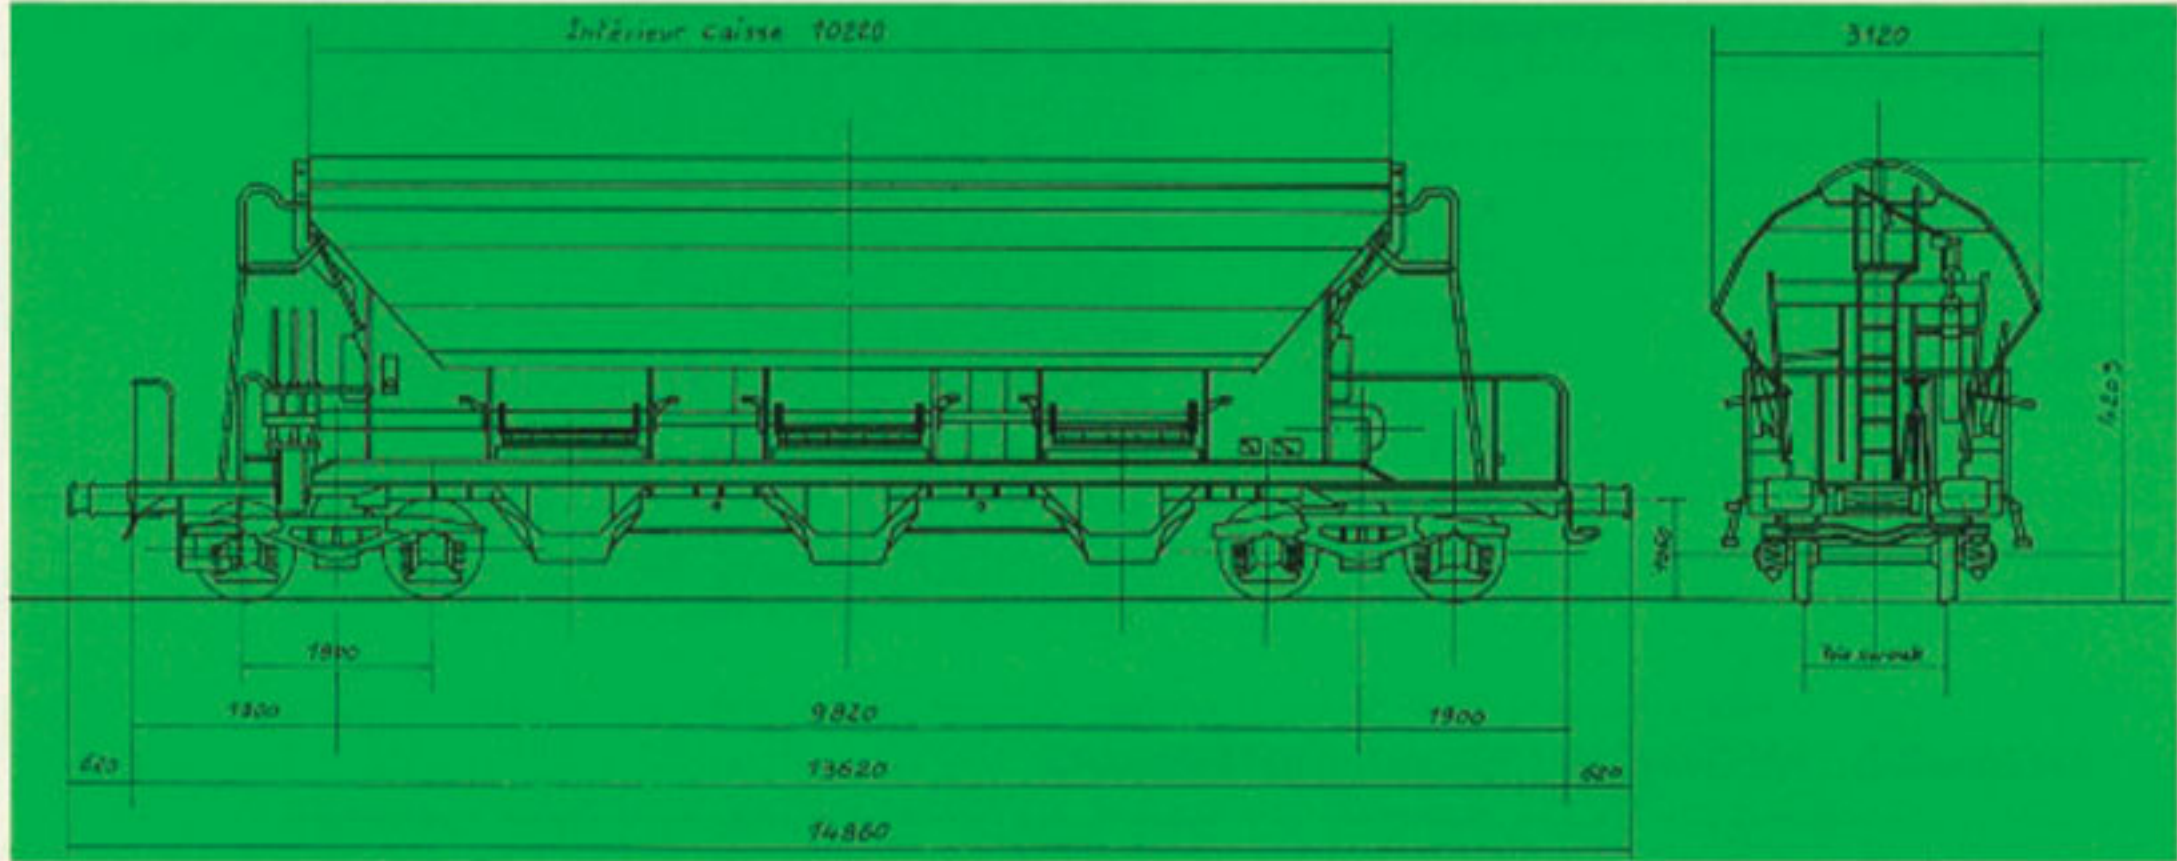

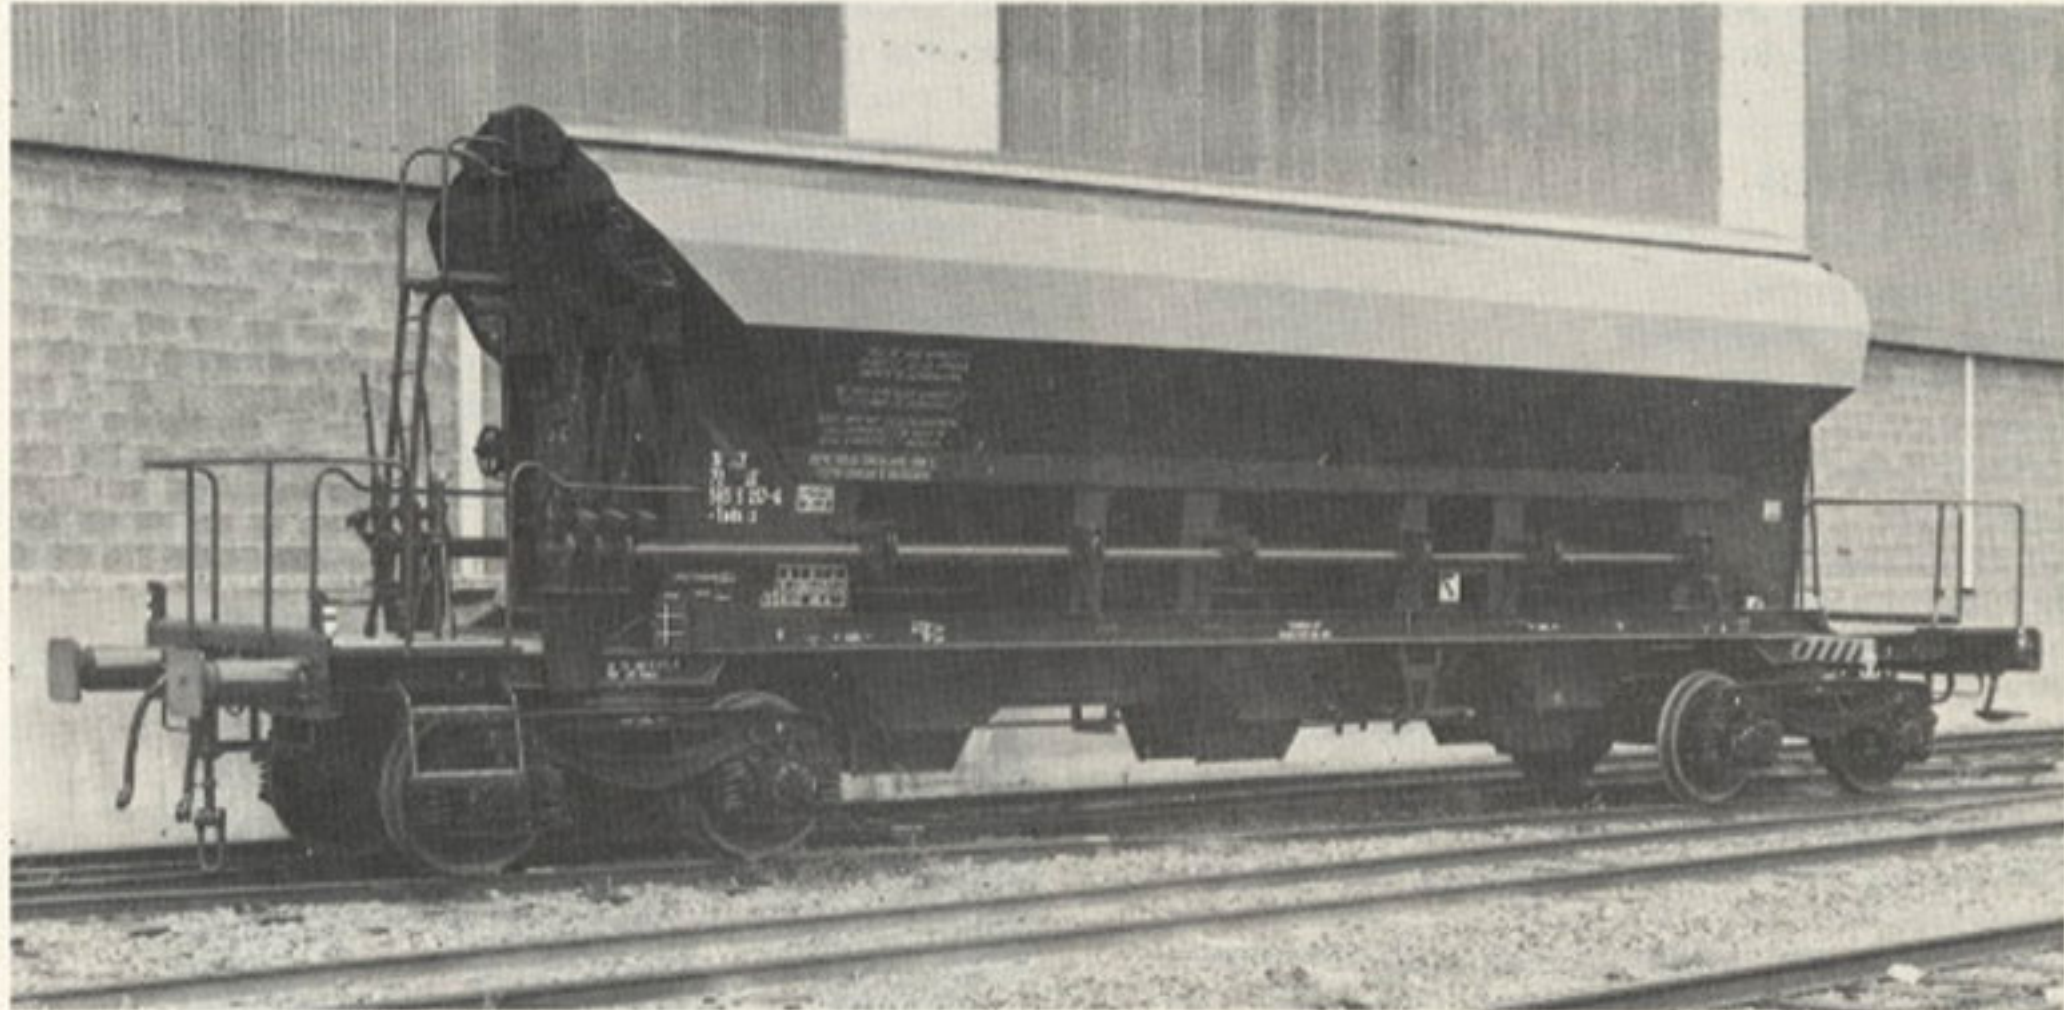

Albert Modell a le plaisir d'annoncer la mise en production des wagons trémie fermés à déchargement contrôlé bilatéral haut Tads (T80 à T83), d'une longueur de 14,86 m et d'une capacité de 45 m³.

Les wagons réels ont été construits en 1973 et 1974 par ANF-Frangeco et ARBEL. Selon les sous-séries, ces wagons étaient destinés au transport de sable, argiles séchées, engrais ainsi que de matières pulvérulentes ou granuleuses.

Il s'agit d'un modèle totalement inédit à l'échelle H0, jamais reproduit jusqu'à présent par un fabricant industriel. Leur développement a fait l'objet d'une étude approfondie, intégrant l'ensemble des variantes existantes des époques IV, V et VI, afin de garantir un haut niveau de fidélité historique et technique.

ALBERT MODELL

About us

The history of our company

Established in 2014, Albert-Modell has swiftly emerged as a known name in the world of model railway manufacturing. Our international presence, which commenced in 2017, marks a significant milestone in our journey. At Albert-Modell, our primary focus rests on producing exquisitely detailed models of Eastern European freight wagons, alongside an impressive range of diesel locomotives, but our range includes more and more models from countries like Germany and Switzerland.

Our philosophy is anchored in the belief that model-making is an art that demands precision, detail, and affordability. We strive to blend these elements, offering our clients high-quality, intricately designed models at a price that respects their passion and investment in this hobby.

Our products are crafted not merely as toys, but as collectibles, with a dedication to craftsmanship.

We pride ourselves on producing models in limited quantities, ensuring that each piece we create is not just a model but an elegant representation of the original. This approach underlines our commitment to quality over quantity, making our models sought-after items for collectors and enthusiasts who value exclusivity and authenticity.

À propos de nous

L'histoire de notre entreprise

Fondée en 2014, Albert-Modell s'est rapidement imposée comme un nom reconnu dans le monde de la fabrication de trains miniatures. Notre présence internationale, commencée en 2017, marque une étape importante dans notre parcours. Chez Albert-Modell, notre objectif principal est de produire des modèles extrêmement détaillés de wagons de marchandises d'Europe de l'Est, ainsi qu'une gamme impressionnante de locomotives diesel, mais notre gamme inclut de plus en plus de modèles de pays comme l'Allemagne et la Suisse.

Notre philosophie repose sur la conviction que la modélisation est un art qui exige précision, détail et accessibilité. Nous nous efforçons de combiner ces éléments, offrant à nos clients des modèles de haute qualité, finement conçus, à un prix qui respecte leur passion et leur investissement dans ce loisir. Nos produits ne sont pas simplement des jouets, mais des objets de collection, avec un dévouement à l'artisanat.

Nous sommes fiers de produire des modèles en quantités limitées, garantissant que chaque pièce que nous créons n'est pas seulement un modèle, mais une représentation élégante de l'original. Cette approche souligne notre engagement envers la qualité plutôt que la quantité, faisant de nos modèles des objets recherchés par les collectionneurs et les passionnés qui apprécient l'exclusivité et l'authenticité.
